

Hydrim C61 G4 Top Cover Removing & Reinstalling Part #01-113286S

screws

Removing and reinstalling the top cover.

Open the chamber door to remove 3 screws under the top cover's front edge.
Pull the top cover to the front and tip it up to remove.

To reinstall, place the cover on top of the unit and slightly forward.
Push it to the back to engage the tabs.
Replace the 3 screws at the front.
